Welcome back to Geography

RESPECT

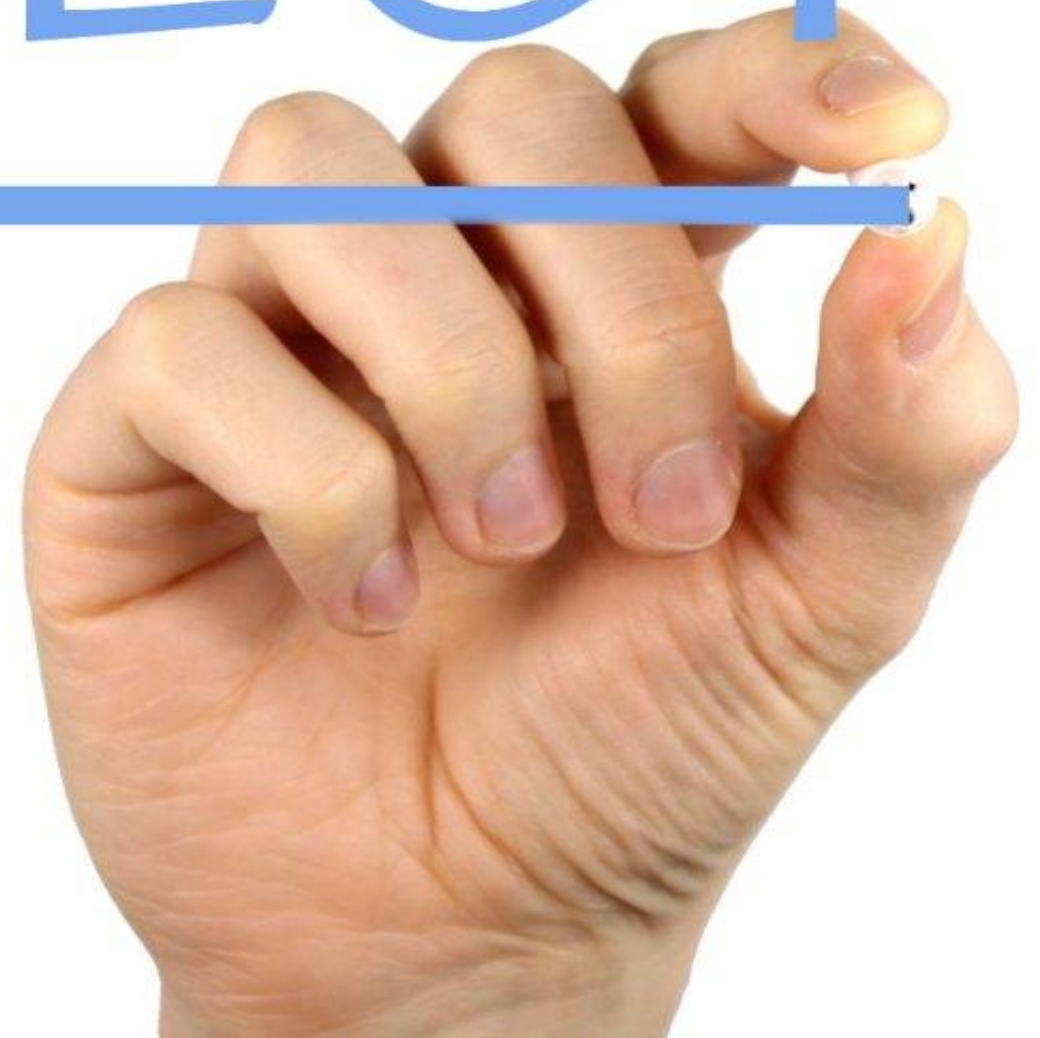

Expectations of students:

- Show **compassion**, kindness and respect to your teacher and peers. 
- Challenge yourself and strive towards **excellence**. 
- Bring your **equipment, homework** and be ready to learn. 

Expectations of geography teachers:

- To create **interesting, thought-provoking lessons**. 
- To provide **regular verbal** and **written feedback** to support your learning. 
- **Reward** hard work and good effort. 

Expectations

Credits will be given for....

- Excellent effort.
- Brilliant classwork and outstanding contributions in lessons.
- Fantastic homework.

Codes will be given for...

- Poor behaviour.
- Poor classwork.
- Missing homework.

Inside your books

For each lesson you need to write:

- The date
- The title
- The learning objective

Headings should be underlined with a ruler.

Remember to write neatly and use blue or black pen.

How and why is the world connected?

LO: To identify ways in which the world is connected and explain how this has changed over time.

Starter task:

1. Name the logo
2. What currency does the United States of America use?
3. What does LIC mean?
4. What does NIC mean?
5. What does HIC mean?

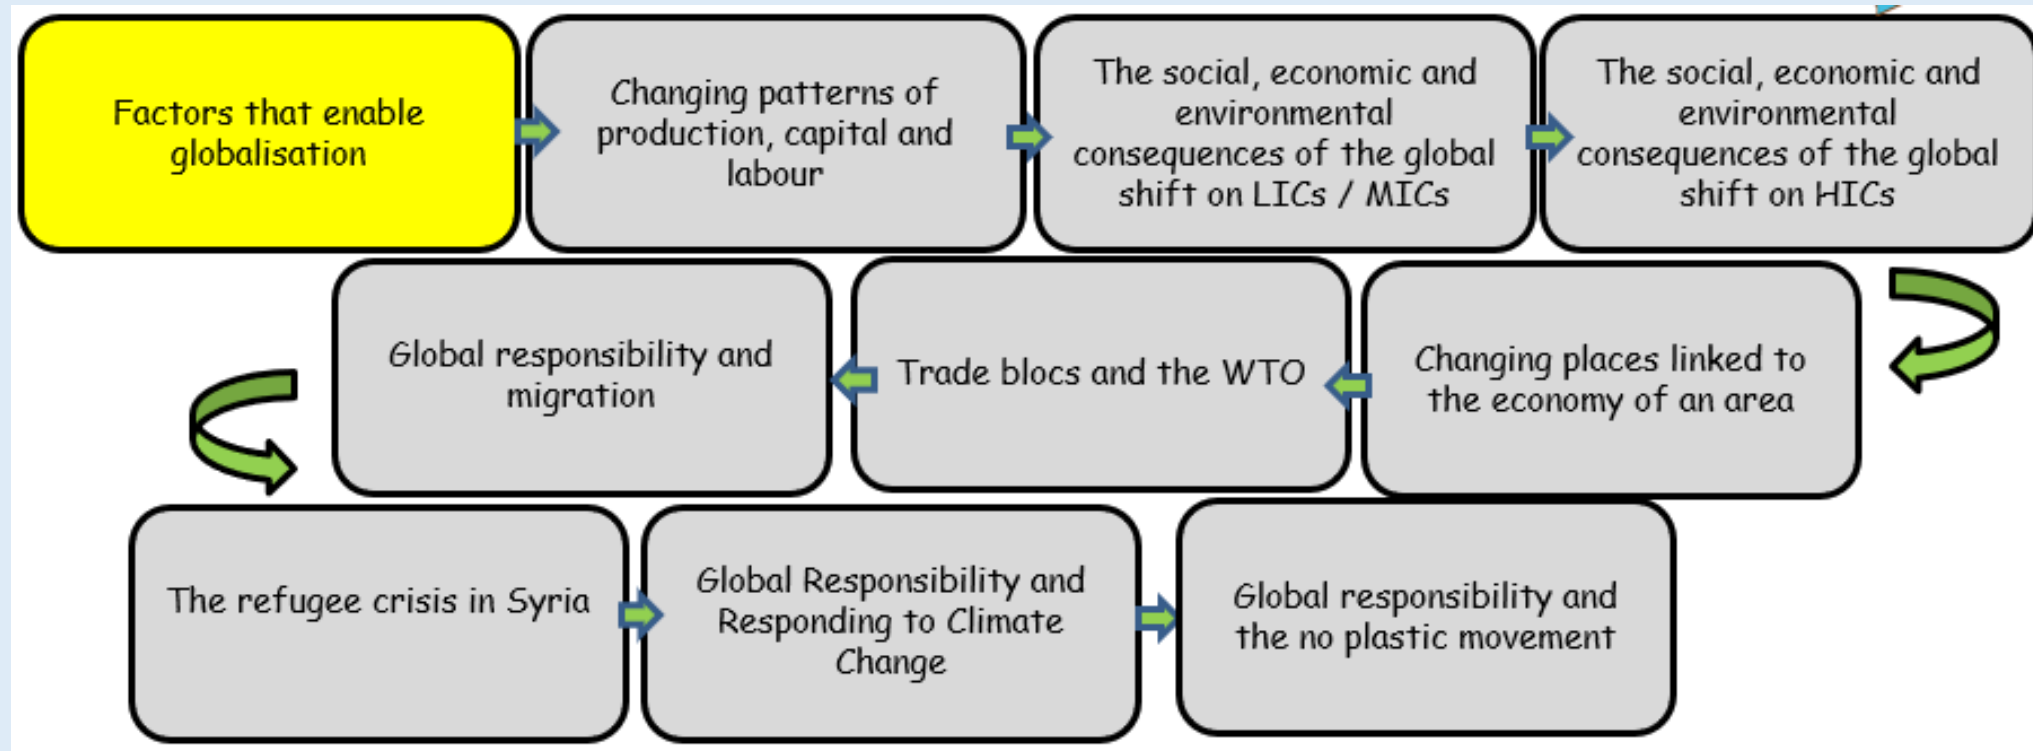

Globalisation

SOAR words:

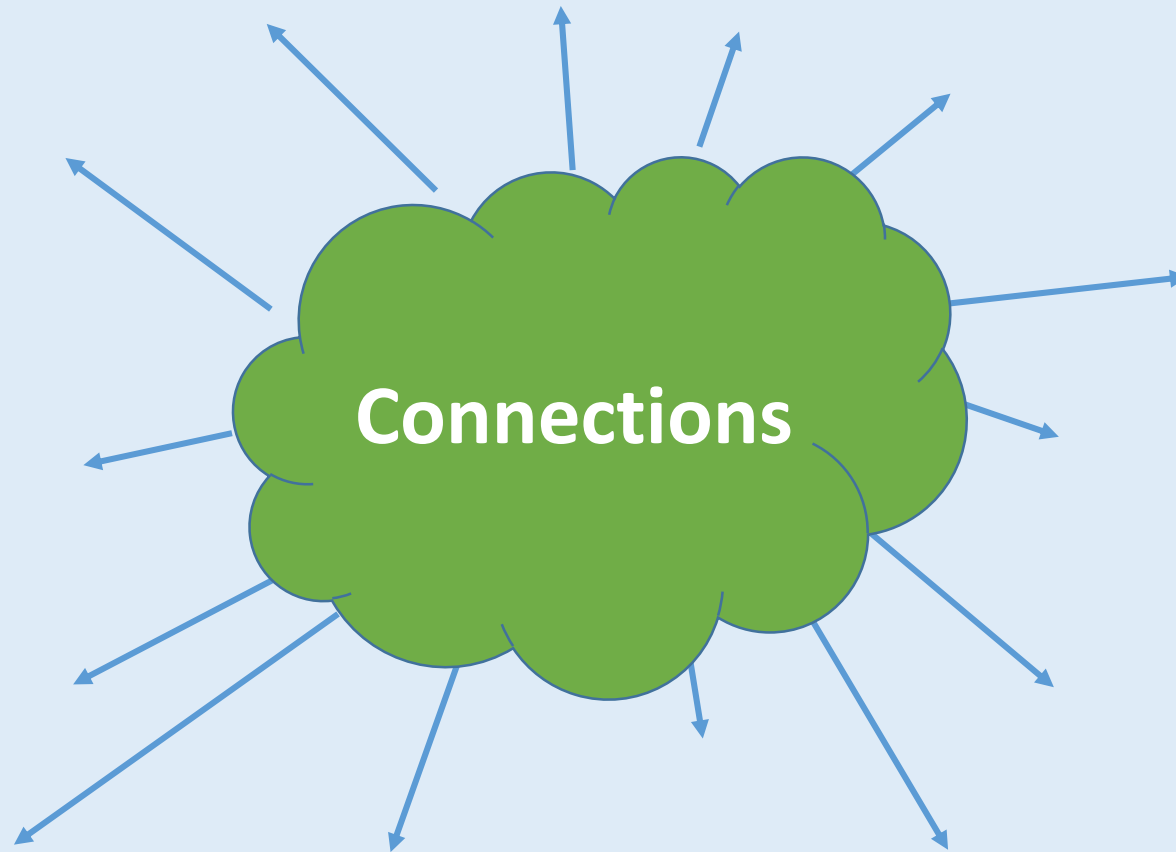

Glo/ba/li/sa/tion

'With the Lord's help'

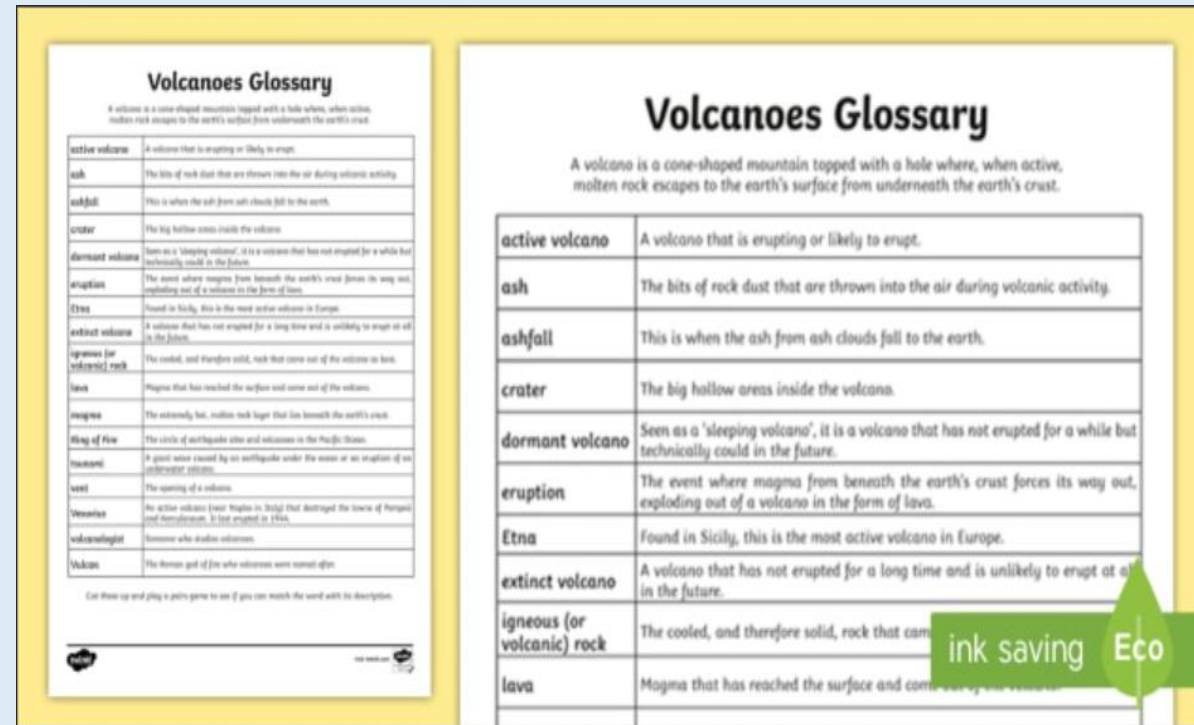

Faith, Excellence, Determination

Create a spider diagram of all the ways we are connected to other countries.

Create a glossary

1. Turn to the back of your book
2. Put the title Cycle 1 Glossary
3. Underline with a ruler
4. Write key word in your margin
5. Write the definition next to the key word

Glossary

Globalisation – is the increasing connections between places and people across the planet, through trade transport and technology.

How has globalisation taken place?

Globalisation is the process of different places becoming more interconnected.

Therefore, any way that countries or regions become more connected contributes to that process.

The three Ts

- Transport
- Trade
- Technology

More trade
between
countries

The growth of a
global culture

The internet
connects people

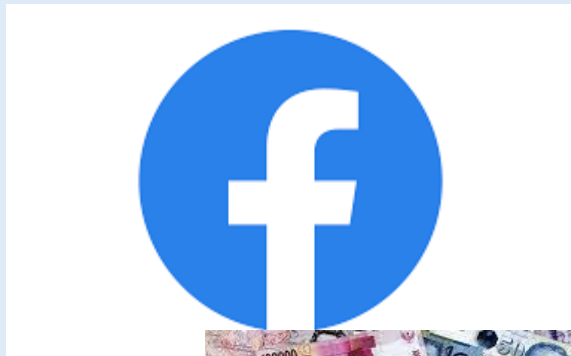

Cheap air flights
and travel

Food and goods
that cross
continents

The global
spread of
wealth

Task: Using the clues and your own ideas, can you think of examples for how the 3 Ts have enabled globalisation? Put them into the table

<u>Technology</u>	<u>Transport</u>	<u>Trade</u>

Create a list of advantages and disadvantages of globalisation

Advantages

- Ideas can be shared easily
- People can travel to more places, faster and cheaper
- Shared culture
- Spread of wealth

Disadvantages

- Diseases spread more easily
- More pollution
- Unequal growth
- Exploitation of workers – sweat shops

Review:

“Globalisation brings more advantages than disadvantages” To what extent do you agree with this statement?

Success criteria:

- Did they discuss advantages of globalisation?
- Did they discuss disadvantages of globalisation?
- Did they give an opinion to suggest if the advantages or disadvantages were better?
